SMART CHOICE

GU-24 Base R-30 Residential Floodlight

California Title 24 compliant

enLux LED residential Lighting - changing the way you look at lighting. Using solid state technology because it makes sense... using technology to build a better world, one neighborhood, one house, one light at a time. **enLux LED lighting**, bright, efficient, AND practical. Hmm... that makes sense, before long all others will follow.

LED Lighting Breakthrough

The enLux GU-24 R-30 LED Residential 15watt White Floodlight equals a 65 watt light output - an energy efficient solution to replace incandescent and fluorescent and will last 3 times longer. The enLux GU-24 base R-30 is available in **cool**, **neutral**, and **warm white**. The enLux 15 watt color Floodlight equals a 100 – 200 watt color floodlight output. The color enLux GU-24 base R-30 is available in **red**, **green**, **blue** and **amber**, plus customs colors.

LED ADVANTAGES OVER INCANDESCENT

-  **SAVES ENERGY** – LED uses 1/3 the energy – saving 66%
-  **LONG LASTING** – up to 50,000 hours, 5 years or more
-  **STAYS COOL** – saves HVAC costs, cool to touch
-  **SAFE** – no glass to shatter, will not break if dropped
-  **RECYCLABLE** – does not use mercury or toxic gasses

Complies California Title 22 (hazardous waste)

LED does not contain any hazardous materials. Incandescent and fluorescent bulbs are hazardous and contain toxic gasses, frequently burn out and pollute the earth. While tens of thousands of burned out lights go to the landfills – Zero **enLux LED floodlights** do!

Kitchen • Hallway • Bedroom • Bath – Recessed or Track Lighting

Builders, specify enLux LED Lighting – an easy choice for big benefits for your new homeowners!
